Talenti presenta le nuove collezioni ispirate alle calde e luminose atmosfere dei paesi che si affacciano sul Mar Mediterraneo declinando influenze e gusti con l'eleganza e lo stile minimal delle migliori scuole di design italiano e internazionale.

A raccontare lo splendore non solo della nostra bella Italia ma anche di Spagna, Francia, Grecia e Nord Africa sono i colori: la luminosità abbagliante del bianco, mitigata dai toni sobri ed eleganti dell'ècrù e del grigio, lascia spazio alla profondità del verde, alle sfumature calde e avvolgenti della terracotta, alla meraviglia dei fiori d'amaranto, al giallo vibrante dei limoneti del Sud.

Come mutuandoli da una tavolozza impressionista, con i colori si gioca sapientemente: talvolta essi spiccano come pennellate pure e vibranti e talvolta fanno da raffinata cornice alla vera protagonista, la natura. Questa maestria, unita alla ricercatezza di materiali e finiture, darà vita a case e giardini piene di sole, mare e pura gioia.

The new collections presented by Talenti are all inspired to the warm and bright atmospheres that you can breathe in the countries lapping the Mediterranean Sea. Characterised by high-quality elegance and minimal style, they are the fruit of the best international and Italian design schools.

The use of colours allows to describe not only the beauty of Italy, but also the splendour of Spain, France, Greece and North Africa: the brightness of the white, tempered by the sober and elegant tone of the ècrù and grey, makes way to the intensity of the green, along with the warm shades of terracotta, the charm of the amaranth flowers and the yellow vibrancy of the south lemon orchards.

As in an impressionist palette, our designers have created plays of colours, sometimes pure and vibrant and sometimes coprotagonists of nature, the real star. This mastery, together with the quality and research for the materials will bring in your homes and gardens plenty of sun, sea and absolute joy.

#Panama collection

Design Ludovica + Roberto Palomba

Nata dal desiderio di rievocare l'ondeggiare delle palme mosse dalla brezza marina e la levigatezza delle pietre modellate dall'acqua, la collezione Panama presenta sedie, lounge, sgabelli, lettini, pouf e divanetti dalle ampie forme in cui le linee delle corde intrecciate e attraversate dai raggi del sole danno vita a giochi di luci e ombre.

Panama collection arises from the designer's wish to evoke the cool sea breeze swaying the palm trees and the smoothness of the stones modeled by the water.

It consists of chairs, lounge, barstools, sunbeds, poufs and sofas, whose main features are the wide shapes in which the lines of the intertwined ropes crossed by sun's rays create a magical play of lights and shadows.

#Cleo collection // ALU
Design Marco Acerbis

Filo conduttore della collezione Cleo Alu è la creazione di un prodotto giovane, dinamico, capace di coinvolgere emotivamente chi lo osserva. Una collezione nata dalla voglia di sperimentare un gioco di contrasti e di combinazioni materiche inedite: la leggerezza dell'alluminio, l'attualità delle superfici in cemento alleggerito e la sorprendente eleganza dei rivestimenti tessili concorrono a creare una linea che si adatta perfettamente ad ogni stile o spazio esterno.

The leading principle of Cleo Alu collection is the creation of a young and dynamic product, which would attract the observer through an emotional involvement. Cleo alu collection is driven by the desire to experiment with contrasts and unique combinations of different materials: the lightness of the aluminum, the modernity of concrete surfaces and the amazing elegance of fabrics contribute to create a collection that fits perfectly with any style or outdoor space.

#Mooncollection // TEAK
Design Cristian Visentin

Una proposta dallo stile elegante, caratterizzata dal colore del legno -teak naturale- e dalla corda intrecciata, che ne esalta l'aspetto naturale ed artigianale. Una collezione di tavoli, divani e sedie che traggono ispirazione dalle forme sinuose della luna. Una struttura affusolata concepita per sostenere e avvolgere sedute comode e spaziose che rendono la collezione Moon un accessorio indispensabile per godere di piacevoli momenti di relax creando ambienti unici e lussuosi.

A collection that skillfully highlights both natural and artisan features, thanks to the warmth of wood (natural teak) and the woven rope. A collection of tables, sofas and chairs whose lines draw inspiration from the sinuous forms of the moon.

A slender frame conceived to support and envelope an elegant and comfortable seating shell that makes Moon collection an indispensable furniture to live a relaxing moments creating a unique and luxury.

#Alabamacollection // ALU
Design Marco Acerbis

Il tratto sofisticato del design italiano e la nobiltà della tradizione artigiana: questa sintesi dà vita alla collezione Alabama. Un modello raffinato e contemporaneo con sedute comode e dimensioni contenute, in grado di soddisfare ogni esigenza di spazio e di stile. La struttura in alluminio, che fornisce stabilità al prodotto, si sposa con il listello in teak, dal colore caldo che rifinisce lo schienale ed i braccioli, diversi materiali per creare un'alchimia perfetta con il contesto che lo circonda.

The sophisticated line of Italian design and the nobility of the artisan tradition: this union gives life to the Alabama collection. A refined and contemporary style with comfortable seats and contained dimensions, able to satisfy every need of space and style. The aluminum structure, which provides stability to the product, is perfectly combined with the teak slat, which with its warm color refines the backseat and the armrests. Different materials to create a perfect chemistry with the surrounding context.

#Alabama collection // IROKO

Design Marco Acerbis

Design, gusto e proporzioni sono elementi essenziali di questa linea. Nella collezione Alabama, l'iroko fa da protagonista ed è unito alla morbidezza del tessuto degli schienali e delle sedute. Uno stile fresco e minimale ma al tempo stesso ricercato, in cui materiali diversi si fondono per creare una collezione dal carattere unico e dal sapore contemporaneo.

Design, taste and proportion are essential elements of Alabama collection where iroko, with its ability to impart colour and warmth, plays the lead role.

A collection with a minimal but refined style, where the mix and match of different materials creates a range from a unique and contemporary design.

#Soho collection

Design Marco Acerbis

Nel dare vita alla collezione Soho Marco Acerbis si è ispirato alla delicatezza e all'equilibrio dei materiali: la corda che si sussegue e si incontra con i listelli di legno crea una rete elegante e visivamente morbida che rimanda al mondo della nautica.

La collezione è un gioco tra i vuoti e i pieni, tra la bidimensionalità della struttura e il volume dei cuscini.

Marco Acerbis for his Soho collection has been inspired by the delicacy and the synergy among materials: the rope follows and joins up the wood batten creating an elegant and a visibly flexible net that harks back to the nautical world. The collection is a mix of full and empty spaces and two-dimensional frame and cushions' volumes.

#Milo collection

Design Marco Acerbis

Eleganza romantica, attenzione ai dettagli, la collezione Milo è costruita sartorialmente come un abito. Toccare è permesso, anzi, è obbligatorio. Questo il concept intorno al quale ruota il progetto di Marco Acerbis. Il risultato finale è una famiglia di oggetti che hanno tutti un animo forte, pur inserendosi nell'arredo senza arroganza. La linea è morbida ma rigida, colorata ma con equilibrio, moderna ma senza tempo.

Romantic elegance. Attention to details. Tailored as a perfect dress. Touching is allowed, no, it is compulsory. This are some of the ideas that Marco Acerbis kept in mind while sketching this collection. The result is a very lively family of objects that have a strong character and yet do know their place without being too arrogant. It is soft yet rigid, colorful but with balance, modern but timeless.

#Trocadero collection

Design Ramón Esteve

Ispirata ai mobili che caratterizzavano le terrazze della capitale francese all'inizio del sec. XX, gli arredi della Trocadéro collection, disegnati da Ramón Esteve, rivisitano gli stilemi propri di quell'epoca conservandone il romanticismo. I materiali che la compongono, regalano ai complementi d'arredo un aspetto leggero. Le doghe sulle sedie, organizzate secondo composizioni asimmetriche, fanno di Trocadéro una collezione dal design unico e senza tempo.

Inspired by the street furniture that filled the terraces of the capital of France at the beginning of the 20th century, the Trocadero collection, designed by Ramón Esteve transmits the Romanticism of that age through a practical and reviewed design. Its materials, provide the lightweight appearance that characterises the collection. The asymmetrical composition of the slats of the seat, make Trocadero a different, timeless design.

Design Karim Rashid

Un prodotto italiano dall'ispirazione egiziana del suo creatore Karim Rashid, per un salotto comodo ed elegante. Le linee dritte, pure, creano con intelligenza e gusto pieni e vuoti piacevoli, che si alternano in uno stile leggero e raffinato. Seduta e schienale fluttuano quasi nel vuoto. La struttura è concepita in modo che la base, più stretta sia epurata all'estremo e lasci il centro dell'attenzione sulla seduta generosa e piacevole, bella da ammirare e confortevole.

It is an Italian product with an Egyptian inspiration which has its roots in its creator, Karim Rashid, ideal for a comfortable and elegant outdoor living area. Its linearity cleverly creates a refined and elegant structure which will give you a sense of fluctuation. The structure is designed to highlight the spacious, beautiful and comfortable seat and to give you the best product to relax, pushing its base aside.

Materials

Alluminio: Grazie alla fusione di più leghe di alluminio che ne garantiscono solidità, maneggevolezza ed inattaccabilità alla ruggine, è un materiale di elevata qualità e permette di raggiungere i massimi risultati qualitativi ed estetici.

Inox: L'acciaio inossidabile è un materiale che, grazie alla sua alta resistenza alla corrosione e alle caratteristiche meccaniche di rilievo, risulta maggiormente duraturo e affidabile nel tempo.

Acciaio: Lega di ferro e carbonio con percentuale di carbonio inferiore al 2% trattata per resistere agli agenti atmosferici con il processo della cataforesi e verniciatura a polvere.

Mantenzione: Per mantenere a lungo il prodotto in buone condizioni, consigliamo una corretta pulizia periodica, particolarmente frequente in località caratterizzate da forte umidità e clima marino. Si raccomanda di pulire le superci con un panno morbido utilizzando acqua o detergenti neutri. Prolungate ed ininterrotte esposizioni a intense radiazioni UV o a temperature molto rigide possono incidere sulle caratteristiche iniziali del rivestimento estetico colorato costituito da poliestere. Consigliamo di pulire e conservare in luoghi riparati i prodotti durante periodi d'inutilizzo prolungato e invernali.

Aluminum: Thanks to the fusion of several aluminum alloys that guarantee solidity, manageability and rust resistance, it is a material of high quality and allows to reach the maximum qualitative and aesthetic results.

Inox: Stainless steel is a material that, thanks to its high resistance to corrosion and to the mechanical characteristics of relief, is more durable and reliable over time.

Steel: Iron and carbon alloy with carbon percentage less than 2% treated to resist to the atmospheric agents with the cataphoresis process and powder coating.

Maintenance: To keep the product in good condition for a long time, we recommend a regular cleaning period, particularly frequent in places characterized by high humidity and marine climate. We recommend cleaning the surfaces with a soft cloth using water or neutral detergents. Prolonged and uninterrupted exposures to intense UV radiation or at very low temperatures can affect the initial characteristics of the colored polyester coating. We recommend cleaning and storing products in sheltered areas during long periods of non-use and winter.

Eventuali imperfezioni legate a tonalità di colore, cavillature superficiali o porosità corrisponderanno allo standard e non saranno per tanto ritenute valide eccezioni in merito.

Per una corretta manutenzione si raccomanda di pulire la superficie con panno non abrasivo. Piccole macchie superficiali dovute a olio, caffè, vino a altri prodotti alimentari dovranno essere rimosse tempestivamente. In caso di macchie resistenti dovrà essere eseguita una pulizia con prodotti contenenti aceto.

Any imperfection related to shades of color, surface cracks or porosity will correspond to the standard and will not be considered valid exceptions in this regard.

For proper maintenance it is recommended to clean the surface with a non-abrasive cloth. Small surface spots due to oil, coffee, wine and other food products must be removed promptly. In the case of resistant stains, cleaning with products containing vinegar.

Ottenute mediante la tessitura di materiali sintetici studiati per permettere di essere usata all'esterno.

Si consiglia di evitare il contatto prolungato con sostanze grasse e/o coloranti che potrebbero venir assorbite dal materiale di rivestimento e dare luogo, di conseguenza, a macchie permanenti e rischiare di deteriorare la struttura del filato. Si consiglia di evitare l'utilizzo di solventi. Utilizzare acqua e detergenti liquidi non abrasivi con PH neutro ed incolori.

Obtained through the weaving of synthetic materials especially conceived outdoor use.

We recommend to avoid prolonged contact with greasy substances and / or dyes which could be absorbed by the covering material used and consequently cause permanent stains and risk to deteriorate the structure of the yarn. It is advisable it is suggested to avoid the use of solvents. Use water and non-abrasive liquid detergents with neutral PH and colourless.

Calacatta 12mm

Teak: Materiale di elevata qualità ideale per la realizzazione di mobili da esterno perché estremamente resistente ai cambiamenti di temperatura, all'acqua, all'umidità e alla salsedine.

Iroko: Particolare tipo di legno dotato di numerose proprietà meccaniche, fisiche e tecnologiche: la capacità di opporsi alle sollecitazioni esterne e l'attitudine a lasciarsi lavorare nonostante la sua durezza. La particolare stabilità e la medio-alta durezza conferiscono a questo legno una buona resistenza alle deformazioni e ne garantiscono una durata nel tempo davvero eccellente.

Stonewood: Per la sua pregevolezza e le sue particolari caratteristiche tecniche si presta agli usi più diversi, ma sempre in contesti di altissima qualità. In particolare, viene preferibilmente impiegato di preferenza per la creazione di mobile di pregiata fattura. Legno compatto, facile nella lavorazione, non scheggia, è leggero, di color bruno-rossastro, di odore aromatico perché contiene un olio essenziale caratteristico ricco di camfora.

Trattandosi di un materiale naturale si potrebbero osservare variazioni di colore o anche crepe dovute al grado di umidità ed ai bruschi cambiamenti di temperatura. Qualora non ricevesse alcun trattamento di manutenzione, mediante l'applicazione periodica di comuni e specifici protettivi a base olio, la superficie potrebbe prendere una patina grigio argento che potrà essere eliminata con una leggera carteggiatura superficiale e successiva lucidatura con panno di iuta. Piccole macchie superficiali dovute ad olio o altri prodotti alimentari dovranno essere rimosse tempestivamente, prima che il legno possa assorbire in profondità, carteggiando la superficie interessata e lucidandola successivamente con un panno di iuta.

Teak: High quality material suitable for outdoor furniture because it is extremely resistant to changes in temperature, water, humidity and saltiness.

Iroko: particular type of wood with numerous mechanical, physical and technological properties: its resistance to external stress and workability despite its hardness. The particular stability and medium-high hardness give this wood a good flexural strength resistance to deformation and guarantee excellent durability.

Stonewood: thanks to its high quality and its particular technical characteristics it can be employed in many different ways, but always in very high quality contexts. In particular, it is preferably used for the creation of high-quality furniture. Compact wood, easy to process, does not splinter, it is light, reddish brown, it has an aromatic smell because it contains a characteristic essential oil rich in camphor.

Being a natural material, colour variations or even cracks due to the degree of humidity and sudden changes in temperature may be observed. If no maintenance treatment is received, through the periodic application of common and specific protective oil-based, the surface may take a silver-gray patina that can be easily removed with a light surface sanding down and subsequent polishing with a jute cloth. Small superficial stains due to oil or other food products must be removed promptly, before the wood can absorb them in depth, sanding down the affected surface and then polishing it with a jute cloth.

Il gres porcellanato, grazie alle sue eccellenze proprieà fisiche e meccaniche, risulta essere ideale per uso esterno, essendo inattaccabile dagli agenti atmosferici e inalterabile ai raggi UV. Tale materiale viene ottenuto tramite il processo di sintetizzazione di argille ceramiche, feldspati, caolini e sabbia.

Per la pulizia dei piani in gres si consiglia l'utilizzo di un panno inumidito con acqua e detergente neutro da risciacquare ed asciugare con un panno asciutto. Nella fase di lavaggio porre particolare attenzione al fine di evitare l'accumulo di sporco o calcare.

Porcelain stoneware, thanks to its excellent physical and flexural strength, turns out to be ideal for outdoor use, being unaffected by atmospheric agents and unalterable to UV rays. This material is obtained through the synthesis process of ceramic clays, feldspars, kaolins and sand.

For the cleaning of stoneware tops it is advisable to use a damp cloth with water and a neutral detergent to be rinsed and dried with a dry cloth. During the washing phase, pay particular attention to avoid the accumulation of dirt

Il Textilene è una fibra di poliestere protetta da un rivestimento in PVC. Le fibre vengono poi legate insieme in modo da ottenere una sostanza fibrosa particolarmente solida e permanente, resistente allo stiramento ed immune da strappi.

La caratteristica più importante è la sua elasticità, offre un'eccellente resistenza alle muffe e alle macchie, e presenta un trattamento superficiale contro la degradazione UV.

Il textilene può essere pulito semplicemente con un panno di spugna con acqua saponata. Abrasivi e solventi devono essere assolutamente evitati! Si asciuga molto rapidamente a causa della loro struttura aperta.

Textilene is a polyester fiber protected by a PVC coating. The fibers are bonded together so in order to obtain a particularly solid fibrous material which is durable, resistant to stretching and wear resistant too.

The most important characteristic is its elasticity, offers excellent resistance to inhibits mold and stains, and has a surface treatment against UV degradation.

Textilene can simply be cleaned with a sponge cloth with soapy water. Abrasives and solvents must absolutely be avoided!
It dries very quickly due to their open structure.

Technical information

Cover

Realizzato con un accoppiato in 3 strati. I due strati esterni sono di propilene ed hanno funzione sia estetica, sia di protezione della membrana interna. La membrana interna è il tessuto tecnico che svolge la maggior parte del lavoro e che ha le proprietà di permeabilità all'aria e impermeabilità. Lavaggio: acqua e sapone, no lavaggio a macchina o a secco.

- Composizione tessuto: polipropilene
- Peso del tessuto: gr 170 circa
- Resistenza alla lacerazione (chiodo): N(MD) 180 - norma EN12310-1
- Resistenza alla penetrazione d'acqua: mm 1200 - norma EN 1928
- Permeabilità all'aria l/(mq-s): norma EDANA 140.2-99
- Trasmissione del vapore acqueo: Sd value m 0,051 - norma EN 12752.
- Protezione contro i raggi UV 500/1000 ore

It is made of three coupled layers. The external ones are made of propylene whose function is not only the aesthetic one, since it also protects the internal membrane. Such membrane is the technical fabric that plays the most important role: the permeability to air and the impermeability. Washing: to wash with soap and water, do not wash in washing machine or dry cleaning.

- Composition of the fabric: propylene
- Weight of the fabric: about gr 170
- Resistance to laceration (nail): N(MD) 180 - EN12310-1 Standard
- Resistant to water penetration: mm 1200 - EN 1928 Standard
- Resistance to air penetration l/(mq-s): EDANA 140.2-99 Standard
- Water vapor transmission: Sd value m 0,051 - regulation EN 12752.
- protection against UV 500/1000 hours
